

Dear ABC High School Parents, Guardians, Community, Teachers, and Staff:

I am truly honored to be selected as your new Assistant Principal and to serve in such a prestigious school and community. I feel that my education at the University of Richmond Educational Leadership and Policies Studies Program and in the VCU Doctorate of Education Program coupled with my experiences as an administrative aide, teacher, coach, and mentor has prepared me for this role. As your new Assistant Principal, I aim to continue to enhance the academic experiences for our students and prepare them for their future.

I look forward to collegially working with our administration team and teachers to ensure students succeed both academically and socially. In continuing to transcend education as a visionary it is my goal to continue to have a collaborative approach to education with all stakeholders in providing a positive culture and climate for learning. Every student should receive both individualistic and appropriate support, resources, and learning experience to excel. Teachers should have autonomy within their classroom while receiving the support to teach their students. Our additional staff should also have access to resources to continue to do the great work they do to keep our facility in pristine condition and our students in great health. The parents and community should be actively involved in our school community. It is my ultimate goal to see to it that our ABC High School Students are receiving the real-world experiences they need upon graduating and beginning to embark on their next venture. It is my vision to see that our graduates continue the infinite learner mindset and become motivational and transformational leaders and influence the next generation of future student leaders.

In short, it is my goal as your new Assistant Principal and in partnership with the students, families, administration, and communities, is to achieve high levels of academic achievement with a supportive climate and culture. In aligning with Chesterfield County Public Schools Design for Excellence 2020 through a healthy lifestyle and thriving educational environment our students will be prepared for success in school, post-secondary education, work and life in a global society. I look forward to building a relationship and partnership with each one of you. Attached you will see a link that will allow you to either provide me with information on how you believe we can propel our school into continued greatness. or schedule a meet and greet time during the open calendar times listed on the provided link. You may also email me at lekiesha_white@ccpsnet.net. Let's take this ABC energy global.

ABC High School Pride.

Sincerely,

LeKiesha Y. White, M. Ed.
